Convocation of open Mail Art, without selection.

Proposal: to reflect on impressions, thoughts, and questions about how we imagine la vida después (life beyond lockdown) that we have been experiencing due to COVID-19, and to transform those concepts into a graphic image; an image that will help us cope with this emergency by picturing how life will be like once the critical phase has ended and effective treatment has been found.

Any graphic technique is allowed.
Works of art using toxic or perishable materials will be excluded.

Size: 50 x 70 cm

Keywords: network, contact, virtuality, connection, exchange, graphics.

The artwork will not be returned to the sender and will remain available for future exhibitions and catalogue collections.

Time period: April 2020 – December 2020
